Rabbits are easily kept. They eat hay, grass, lawn cuttings and green vegetation of many kinds. Penales should be allowed to breed when eight or ten months old, and during the year should raise four litters or about six young earli. Well fed, the young reach marketable size when three or four months old and average from tive to six pounds live weight

Beware of the Wastebasket!

It is as much a mistake to send out poor printing as to send a poorly dressed salesman out to sell your goods. Either may do you more harm than good. Bear that in mind when you next have a circular, folder, letter head, or any other printing to do. Keep it out of the waste basket. It was made to be read.

THE BEST WAY TO DODGE THE WASTE BASKET

Is to have your printing up to the standard that will reflect the quality of the goods and the business policy of the firm.
